

LEAF PICK-UP AND DISPOSAL

The City will be providing free leaf pick-up this fall. Please follow the guidelines listed below.

- Rake all leaves into the street two feet from the curb to allow for drainage.
- No foreign materials such as rocks, brush, branches, or garden materials. These materials may cause mechanical problems to the leaf machine.
- Avoid parking on the street during collection weeks. Cars parked on dry leaves may cause fires.
- Place leaves on the street one week prior to the scheduled pick-up date for your area.

There will be two collection dates for the areas shown. Please check the map on the back of this flyer to determine which area you are in. Leaves on the street or curb lawn after the 2nd collection time are the responsibility of the home owner to dispose of.

<i>Area</i>	<i>1st Collection</i>	<i>2nd Collection</i>
(A) Northwest	The Week of October 30th	The Week of November 27th
(B) Southwest	The Week of November 6th	The Week of December 4th
(C) Northeast	The Week of November 13th	The Week of December 11th
(D) Southeast	The Week of November 20th	The Week of December 18th

The following alternatives are available for leaf disposal.

- The City has established a leaf drop off point behind the building at 600 West Madison St. Residents may drop off leaves until December 24th.
- Waste Management, our refuse collector, will pick-up leaves that are placed in the trash toter on the regular scheduled trash day. The leaves must be out at the curb for your normal trash pick-up time. Leaves in all other plastic bags will not be accepted. Do not use Recycling toter for leaves.
